COMMISSION

Dear Sir or Madam,

I live in Northern Kentucky and have just been made aware of the Northern Kentucky Water District's plan to raise our water bills by 27.70% over the next two years. I respectfully request that you intervene in our behalf (citizens of N.KY) and disallow this increase. My husband and I are retired and used our retirement funds to care for my elderly parents. We almost lost our home because we lost our part-time jobs. In case they haven't noticed, we in N.KY are in very dire straits. We just can't keep paying higher and higher taxes, utilities, water, sanitation, and on and on. Every single thing we need to survive is either having the price raised or taxes added. But, we on Social Security are not receiving an increase to keep up with these expenses. I am so desperate; I really don't know what I'm going to do. I had to quit taking two prescriptions, so we can have money for food. I tried for 3 yrs to sell my house and can't do it -- and it is a beautiful home priced below market price. Please, please don't let this happen. It has to stop someplace. I'd be interested to know if the powers that be at the N.KY Water District received raises this year.

Sincerely,

Bonnie S. Bauer
